Enjoy your video conferencing journeys with a Go North East virtual background

Bus fans, we know you'll be missing travelling on our buses but right now it's important that we continue to stay at home and protect key workers.

Don't worry though, we have some good news – you can now travel with us from the safety and comfort of your own home.

We've put together some custom backgrounds for you, so you can sit back, relax and enjoy your video conferencing journeys on one of our buses.

Simply download your favourite photo below and use these guides to set the virtual background up on Teams or Zoom.

How to set up your custom video call background
